

Sports Flooring System

Dynamik Komfort Elite Pro

Low Profile Sprung Timber Area Elastic Sports Floor

DYNAMIK

The DYNAMIK Komfort Elite Pro is a low profile sprung area elastic sports floor system. It is designed to be installed onto a level slab (+/- 3mm over 3m) and incorporates an engineered hardwood board.

The system consists of a comfort-based elastic layer over which a load distribution board is installed prior to the engineered hardwood board. Consistent sports performance is guaranteed as every part of the surface is equally supported by the high density elastic layer.

Komfort Elite Play Benefits

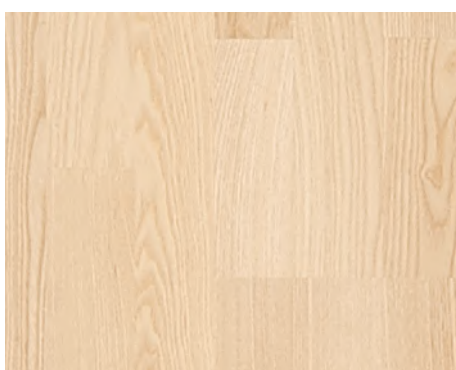

- Meets the requirements of EN 14904
- Sport England compliant
- Ideal for overlaying existing sports floors
- Low construction height
- Complies with the latest ESFA specification
- Multi-activity and play
- Factory finished lacquer
- 25 year warranty

Surface Finishes

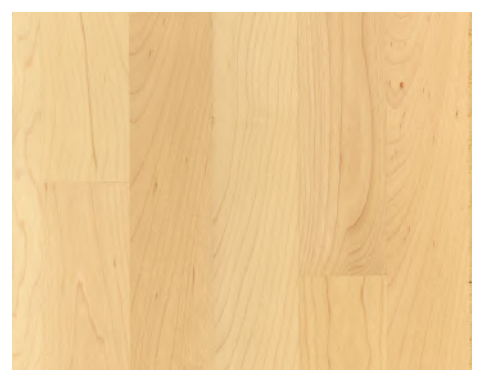

The Komfort Elite Play engineered hardwood board is available in three different wood species:

European Oak

Ash

Canadian Maple

1	Engineered Hardwood Board - 2.2m x 180mm x 12.6mm	12.6mm
2	Noise Reduction Layer - Polyethylene	0.03mm
3	Load Distribution Board - (T & G) - Strip size: 2.5m x 175mm x 12mm	12mm
4	Comfort Based Elastic Layer	10mm
Total Construction Height		34.63mm

Performance Characteristics

Certification - EN14904	Class A3
Shock Absorption	40% < 55%
Vertical Deformation	1.8 mm < 3.5mm
Rolling Load	< 1,500 N
Ball Rebound	≥ 90%
Slip Resistance	80 - 110
