

DYNAMIK Acoustic Mat Anti-Vibration Rubber Mat for Home or Gym Use

DYNAMIK

Thickness	5mm
Width	1.0m
Length	2.0m
Material	SBR Recycled Rubber
Colour	Black

The DYNAMIK Acoustic Mat reduces unwanted noise transfer and vibration when using exercise equipment at home, at the office or at your local gym.

Spinning Bikes, Zwift, Peloton, Rowing or Cross Trainers all produce vibration and noise when in use. The DYNAMIK Acoustic Mat not only protects your soft flooring, wood or parquet from indentation, water spillages and scratches but the Acoustic Mat will isolate and reduce unwanted airborne noise and vibration from floors and walls and is easily stored when not in use.

Acoustic Mat Benefits

- Superior sound and shock absorption
- Anti-Slip
- Easy to roll up and store
- Provides Extra Cushioning
- Protects floor surface from indentation and scratches
