

D-Slat Acoustic Wall Panels

Internal Decorative Wall

DYNAMIK

The DYNAMIK D-Slat Decorative Wall Panels offer high-performance sound absorption with wall and ceiling-mounted options available. The clean and seamless design ensures excellent acoustic efficiency and the innovative finish offers the benefit of reducing sound pollution whilst offering an elegant finish for your sports hall, gym, and reception areas. Can be used in areas close to the floor for optimum acoustic efficiency.

Benefits

- The panels offer a high level of sound absorption
- Seamless appearance
- Impact resistance (softball)

Fire Performance – The panels are fire rated Rated to European Class B - S1-d0 to comply with Building Regulations, Sport England and the Department of Education - Education & Skills Funding Agency (ESFA) requirements.
