

The DYNAMIK Zone-Flex Interlocking Rubber Tile is perfectly suited where impact resistance, vibration and noise control are required within fitness, gym and training facilities. Zone-Flex is designed and engineered to be easy to clean and to maximize durability, functionality and visual appearance. This tile is also an excellent choice for multi-use, functional and free-weight zones which require a loose-laid, adhesive-free installation, perfect for temporary or permanent installations. It is normal and acceptable for loose lay, adhesive free tile installations to have small gaps between tiles due to natural expansion and contraction of the rubber surface.

Zone-Flex Benefits

- Close-fitting interlocking design
- Good grip with sure-footing
- Attractive colour fleck surface

- Smooth, easy-to clean surface
- Adhesive-free, quick installation
- High indentation resistance

Dark Grey

DYNAMIK Zone-Flex Technical Specifications

Tile Dimension	1000mm x 1000mm
Tile Thickness	10mm
Tile Weight	10.2kg/m2
Colour Options	Black + Dark Grey/Light Grey/Bright Red/Blue EPDM Fleck 15% mix
Manufacturing Tolerances	Width / Length +/- 1.5% Thickness +/- 0.3mm
Profile	Square Edge
Interlocking Profile	Jigsaw Locking System
Material	Recycled SBR Granules + 15% EPDM Granules
Bonding Agent	Polyurethane
Tensile Strength	374psi - ASTM D412
Tensile Strength Slip Resistance	374psi - ASTM D412 Technical Class DS - EN13893
-	•
Slip Resistance	Technical Class DS - EN13893
Slip Resistance Sliding Properties	Technical Class DS - EN13893 R10 - DIN 51130
Slip Resistance Sliding Properties Static Coefficient of Friction	Technical Class DS - EN13893 R10 - DIN 51130 Dry:>1.00 - ASTM D2047
