

### Multi-Flex 20

20mm x 500mm x 1000mm

### Multi-Flex 30

30mm x 500mm x 1000mm

### Applications

- Commercial gyms.
- Spin rooms.
- Equipment isolation.
- Cross fit training areas.
- Yoga studios.

DYNAMIK advanced flooring solutions are designed to reduce impact sound transmission and vibration caused by free weights and cardio gym equipment. The result is a safe exercise space that causes minimal noise disturbance for adjacent spaces.

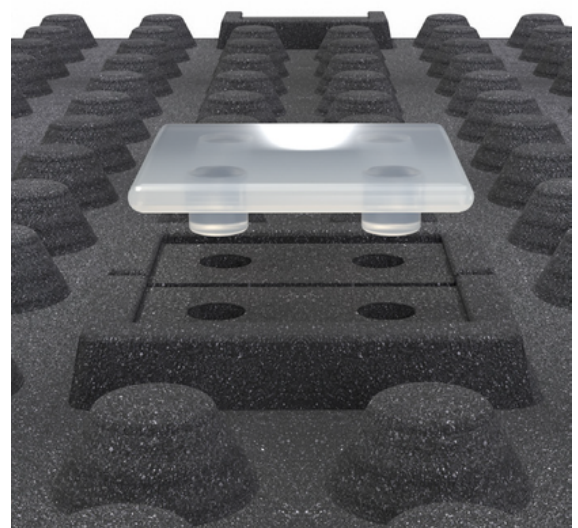

Multi-Flex Elite incorporates a high strength, flexible fibre coating providing a durable stain resistant authentic looking woodgrain aesthetic.

Adhesive free installation with a precise interlocking system. Multi-Flex tiles provide enhanced shock absorption and a safe resilient platform for exercises and free weights areas. The premium vertical locking mechanism allows easy installation and complete flexibility. This interlocking floor system provides a totally adhesive free installation process, preventing contamination of the subfloor.

### Principle Features

- **Woodgrain Surface** - Fibre coating top surface with authentic woodgrain aesthetic.
- **Adhesive free** - No adhesive contamination of the subfloor with vertical interlocking system.
- **Flexible** - Areas can be re-purposed at any time by simply disconnecting the tiles and refitting.
- **Acoustic Performance** - Excellent impact sound reduction.
- **Sustainable and Recyclable** - Manufactured using recycled rubber.
- **Healthy Environment** - Superfine compounds reduce absorption of dirt and make the cleaning process easier. Hygienic, SBR rubber is naturally anti-microbial, anti-allergy.

### Vertical Connector Locking System

### Multi-Flex Product Range

<b>Thickness</b>	Multi-Flex 20 - 20mm Multi-Flex 30 - 30mm
<b>Dimensions</b>	500mm x 1000mm
<b>Density</b>	900 kg/m <sup>3</sup>
<b>Impact Sound Reduction</b>	Multi-Flex 20 - 23dB Multi-Flex 30 - 23dB

### Interlocking Ramps

Straight Ramps - Plain Black

20mm x 250mm x 1000mm

30mm x 250mm x 1000mm

Corner Ramps - Plain Black

20mm x 250mm x 500mm

30mm x 250mm x 500mm

Woodgrain effect ramps available

Ramps have a gentle slope to ensure a safe walking environment.

**Acoustic Performance:** Further acoustic improvements can be achieved by combining with ISO-Flex multi-layer systems.
